

Dance Friday, January 22nd

Another dance sponsored by the Community Hall Committee is to be held in the Bassano Community Hall on Friday, Jan. 22. The local Royal Hall will supply the music, so another very enjoyable evening is assured. The dance starts at 8:30 p.m. and admission has been set at 50c, including refreshments. Everyone is urged to attend this event.

Social Credit Notes

General members brewed the severe cold weather last Thursday Jan. 14th, to attend the regular meeting of the Old United Social Credit Group in the I.O.O.F. Hall.

Regular routine business was dealt with. A financial report of the Group was read by the Treasurer, D. Morrison, showing the Group in a very favorable financial standing. A flower and sick committee was elected. The committee consists of two ladies of the Group. Those elected were Mrs. J. H. Harris and Mrs. J. O. Morrison. The retiring entertainment committee, whose duties expired at this meeting were given a hearty vote of thanks by the members present and were congratulated on their achievement. A new slate of officers were elected for a period of three months. Those elected were: P. King, J. Bacon, Mrs. R. Dugan, Mrs. Belot and Mrs. H. Greenhouse.

The question period proved to be very interesting. At each meeting a number of questions are given to the regular members. These questions are to be answered at the next regular meeting.

Of much interest to those present was the report of Mrs. C. Morrison, on the Calgary Divisional Conference held in Calgary on Jan. 8th. Mrs. Morrison related several discussions taking place, stating that the Bow Valley delegates took quite an active part at this conference, and made a favorable showing. Mrs. Morrison's report also included several of the resolutions adopted at the conference. Mrs. Morrison acted in the capacity of delegate from some three of the Bow Valley Constituencies.

After a short general discussion the meeting closed by singing God Save the King.

Lunch was then served by the entertainment committee, followed by dancing. Everyone reported a very enjoyable time.

The next regular meeting will be held Thursday, Feb. 11. All members are requested to attend. Visitors are welcome.

Curling Notes

Curling resumed set-back this week owing to the severe cold weather, only three games being played on Monday night.

The Club is well represented at the hospital this year as in addition to the McLaws rink in Calgary, Sgt. Clarke, Irving Young, P. McBeth and Mel McKay formed a rink and entered the Clancy Bonspiel, as did Dr. Scott, Dr. Keith, A. Hanson and A. White.

All members of the Curling Club are looking forward to a bang-up Bonspiel next week.

FORMER COUNTER GIRL ADMITTED AS STUDENT NURSE

Jeannie Gamble, formerly of Countess, received her cap at a candidate service held recently in the nurses home of the Daughters of the Empire, Grand Falls, Montana, and was admitted as a student nurse.

Miss Gamble was one of thirty-five who successfully passed their respective quarter tests and received their caps on December 18.

235,215,000 BUSHELS

CANADA WHEAT CROP

EXCEEDED 1936

Canada's wheat production of 235,215,000 bushels during the 1936 season was the smallest crop since 1913.

The Dominion Bureau of Statistics reported in its third estimate of field crop production.

Local Curlers Win at Calgary

Once again Bassano is represented in the Calgary bonspiel by a rink of local curlers under the leadership of Wm. McLaws. The rink comprises Andrew Cathro, lead; Ben Pinner, second; Art Simpson, third; and Wm. McLaws, skip.

With the exception of the first day, when they lost two games, this rink has displayed their curling ability in a very creditable manner, having won eight straight games so far. Of these, McLaws was so far in the lead in two games, that the opponents gave up the battle before the tenth end.

Particulars regarding the progress made by Mr. McLaws and his rink will appear in the columns of the recorder next week.

Hussar Notes

The Hussar W. I. will hold its January meeting at the home of Mrs. LeGrandeur on Thursday, Jan. 21st. The section of officers is the chief business.

Mr. and Mrs. P. Law of Chancellor Mr. and Mrs. H. Thew of "Dorothy," and Mr. and Mrs. A. Law were Hussar visitors on Wednesday evening.

Messrs. Jason Bell and Maiville Andersen motored to Calgary on Friday. Maiville remained to join an orchestra there. Mr. and Mrs. R. C. Brewer returned with Jason to visit the Bells.

Mr. J. V. Elliott and Woodrow, and Mr. and Mrs. W. Kuchle were Calgary visitors on Friday. Miss Nancy Elliott, who has been visiting Jesse, returned with them.

Mr. A. Montgomery motored to Bassano on Saturday and Mr. A. Brown returned with him.

Mr. E. Anderson motored to Bassano on Sunday to visit his wife and infant daughter, born on Saturday morning in the Hussaro hospital.

The Ladies' Aid held a shower for the first Hussar twins at the regular meeting on Thursday afternoon. Mrs. Blakely, sheets, pillow, towels, shirts, and other knitted garments were donated, and many expressed homelike regarding contributions.

Sixteen members said visitors were present. The program consisted of a paper on "The Farm Wife's Viewpoint" by Mrs. T. Lawman. In addition to the routine business was decided to send \$15.00 to the minister, who will be unable to conduct services for three months on account of the inclement weather and bad roads. A family lunch was served by the hostess, Mrs. T. Baidet, and a social hour enjoyed.

BREWER-BELL

Miss Margaret Janet Bell, youngest daughter of Mr. and Mrs. J. J. Bell of the Hussar, was the bride of Mr. Roy Clifford Brewer, on Wednesday, January 13th, at Couer d'Alene. They were attended by Mr. and Mrs. H. Brewer. Miss Rita J. Burleson and Mr. W. N. O. Haver.

LAW-LEGRANDEUR

On Tuesday evening, January 19th, at the Southminster United Church, Manne, Lethbridge, Miss Margaret Vivian LeGrandeur, became the bride of Mr. Arnold Law, eldest son of Mr. and Mrs. P. Law of Chancellor.

Mr. O. Hunter, of Barons and Mr. Raymond Law, brother of the groom were in attendance. Rev. J. M. Freillard, R.A. officiated. Mr. and Mrs. A. G. Law will reside at Hussar. Both young people are well known and highly respected in this community and in Chancellor, and the good wishes of their many friends go with them.

There is nothing new under the sun. In the Arctic there is a new kind of chewing gum, consisting of solidified seal oil and the downy flower spikes of the willow.

Local Hockey Team Wins First and Loses Second Games of Season

The first game of the season was played on Sunday afternoon at 2 o'clock. A full crowd turned out and gave the boys great support with their cheers and warnings.

A silver collection was taken up and a fairly good sum was realized.

The second period was rather rough when Pete MacLean was carrying the puck. He was checked and suddenly tripped, a cracked head and split ear being the result. But there was no stopping him!

Labor on the puck was typical during the air toward the Countess goal a little high but not high enough to miss Grangie's chin. Callwell finished the game in Countess goal, while Grangie had two stitches put in his chin.

First Period
Gordon Smith scored with a very neat assist from Babe Basanah.

Second Period
Gordon Smith scored a goal unassisted.

Very little combination play was shown by either team in this period.

Third Period
George Stiller scored from a rebound of Basanah's. Golden Smith scored unassisted. This goal did handling. He received the puck at his blue line and carried over to the opposition blue line and made a fast low shot to stretch the netting.

Gordon Smith scored unassisted in the last five minutes of play. The three Smiths and Basanah showed a good style of hockey all through the game.

Oh, we can't let that goal for Countess pass. Art Arvish accidentally tallied one for the visitors when he missed it at the goal-post but it still slipped by the net. P. Ferguson got the credit for the goal because he touched the puck last. Penalties were dishied out to Gordon Smith and Cliff Johnson.

LINE-UP

Charlie MacMaster, Harry Bultner, Joe Old Woman, Joe Fox, James Young, Fred Brander, O. Fox, Spotted Tail, Mark Wolfery, Gordon Yellow, Arthur Youngman.

Basanah—Gordon Smith, Norman Wright, Bob Bacon, George Marquardt, Goldie Smith, Ramsay Broadfoot, Bill Smith, Babe Basanah, Bill Snares and Roy Callwell.

SAMAKA SUFFERS SCARLET

Scarlet fever has been prevalent in the community for some time. The Minnesota colony south of the town first contracted the disease, and it has since spread to other camps in the district. School has been closed once, and may have to be closed again.

AT THE HOSPITAL

DOHN—To Mr. and Mrs. E. Anderson, of Hussar, on January 16th, a daughter.

Score 6-1

Referee: Fred Thompson

The most outstanding feature of the first game was the fine skating features of the Old Sun Indians and also their combination plays.

It was a very clean game with the exception of a great number of heavy body checks. The Basanah team was not very aggressive in their play although they did put up a good fight.

Our most outstanding player was "Babe" Basanah, the old stand-in in Junior Hockey. He is showing a great improvement over last year's playing, and deserves all the credit this time.

Joe Old Woman and Charlie MacMaster showed first class performance in skating and stick handling, but the most impressive play was in the combination play that was in constant evidence from the time the bell rang until the whistle blew to end the game.

The game as a whole was very fast and clean. The Old Sun Indians kept their stick on one of the electric light wires and put out a string of lights this delayed the game for about ten minutes but it was returned in the same calm.

Penalties were very scarce and the O.H.L. team marked up three against them. They were as follows:—1st, Mark Wolfery and Gordon Yellow; 2nd, Charlie MacMaster.

The penalty on the Basanah team was handed out to Goldie Smith.

Goals were scored in rapid succession, started by Joe Old Woman and followed up by James Young and then Joe followed up with two more.

Now "Charlie" Mac Master tallied another two in quick succession. Joe finished the game, scoring the last within the last two seconds of the game.

LINE-UP

Charlie MacMaster, Harry Bultner, Joe Old Woman, Joe Fox, James Young, Fred Brander, O. Fox, Spotted Tail, Mark Wolfery, Gordon Yellow, Arthur Youngman.

Basanah—Gordon Smith, Norman Wright, Bob Bacon, George Marquardt, Goldie Smith, Ramsay Broadfoot, Bill Smith, Babe Basanah, Bill Snares and Roy Callwell.

NEW BREED OF SHEEP FOR CANADIAN FARMERS

Shown above for their arrival in Canada in the Canadian Pacific's "Moosehead" breed of sheep. This breed is a great deal to Canadian farmers in the future. They are a gift to the Province of Ontario from the Kerry Hill flock society in North Wales and are an outstanding breed of general utility sheep, which, due to their adaptability to any environment, are expected to gain rapid favor in this country.

The gift of the lion of ten ewes and one ram was arranged by the Ontario Agricultural Society, W. Rupert Davies, president and editor of the Kingston, Ont. Weekly-Standard. These prize ewes, products of generations of hardy hill sheep, are the best of the breed, and are destined for the Ontario Agricultural Society at Guelph, from where the strain is expected to spread to other parts of the country.

An idea of the economic and economic value of the gift can be derived from the fact that the above animals look first prize at the annual Kerry Hill Sheep Fair where some 15,000 to 20,000 sheep were shown. Besides being able to withstand blizzards, these sheep are hardy, and are economical, and will, it is felt, prove of great value to Canadian farmers.

University Lecture The World Of Wheat

"At Heidelberg University, the student's life is to a large extent controlled by 'Naal' groups," said Mr. Ewart Brown, in his address to the University Women's Club, entitled "Experiences at a German University at the Puller hotel in Calgary Monday evening."

Mr. Brown has recently returned from Germany, where he spent six months studying at Heidelberg University. He graduated from the University of Alberta in 1935, and is at present living in Bassano. He is the son of Mr. J. Rex Brown of Calgary.

"University work was suffering through the many changes," said Mr. Brown, and went on to explain that from 1933 until 1935 50 per cent of the staff of professors and lecturers had changed.

The main reason for this was explained the former professors were younger men, without the same breadth of vision, and in all their lectures they emphasized the vast interpretation of their subject.

Students and professors alike, said Mr. Brown, were the Naal uniform, and the university conversation now of like a military rally. However, Hitler was the person all Germans admired and they believed him absolutely sincere.

War Propaganda

The amount of war propaganda that was in evidence seemed shocking to Mr. Brown. During a social that he held to welcome new students, part of the program was devoted to the reading of six or eight letters describing some peculiar horror of life in the trenches. And every song that was sung made some reference to war.

Women were not allowed to attend freely at Heidelberg, they did study, but they had no hope of receiving a degree, so most of the women studied in a language college.

Mr. Brown closed his address with the statement that he felt the German student was in advance of the American on Canadian studies.

Book-learning and the arts, but the English speaking students were invariably more mature than the German. The English, those who had been used to free discussion found it most uncomfortable when there was more than one German in a group.

Mr. Brown, concerning Germany could be discussed. The newspapers, of course, were censored, and foreign students had to depend on foreign papers for information, concerning any other country than Germany, and even the truth about Germany itself.

Miss E. Alfard, president of the Women's University Club, was in the chair.

Dr. William Saunders was a Hercules, personality name. Mr. Saunders was a professor of chemistry. Another son, Dr. C. W. Saunders, was a scientist, an instructor in music and voice culture, and a masterly player on the flute.

Out of the young couple in these remarkable personalities came Mr. Saunders' wheat, which, during the past twenty-five years, has been needed probably on a larger acreage, than any other spring wheat variety known in Canada.

Dr. William contemplated the need for an earlier variety than Red Fife. He imported breeding stocks from many parts of the world. In 1909, in 1910, made the crosses of Red Fife and Hard Red Calcutta, and Dr. Charles, in 1914, made the final selection which resulted in Marquis.

Dr. L. H. Newman, in 1912, selected for Dr. Seager Wheeler at Rossburn, Sask., an improved Marquis head, which, multiplied under Seager Wheeler's skillful eye and hands, became the famous "16-B" strain, from which sprang probably 90 per cent of all registered Marquis.

Marquis once occupied about 50 per cent of the wheat acreage of Western Canada. Today it still occupies nearly 60 per cent. It is still the "King of Wheat" and should be regarded in preference to any other variety.

Following factors have tended to increase the popularity of Marquis:

British consignment building up reserve wheat stocks—U. S. Farm stocks of wheat and corn smallest on January 1st in eleven years.

Government demands increased grain deliveries and prohibits wheat and feed feeding to livestock—Italy, Greece, Holland, Belgium and Germany have bought large quantities of Argentine wheat.

Drivers Must Be Physically Fit

RULES ISSUED FOR PUBLIC SERVICE, COMMERCIAL TRUCKS

Covering operation of public service or commercial vehicles in Alberta, new rules of a remedial order the Public Service Vehicles Act to become effective April 1st while the new rules of a remedial order night by the provincial highway traffic law.

The regulations provide that drivers of public service vehicles or commercial vehicle must obtain by April 1st of each year a doctor's certificate certifying to the driver's fitness, hearing and general physical fitness.

No driver shall work more than nine hours in any period of 24 consecutive hours except in a case of emergency.

Individual certificates must be furnished for acceptable service or commercial vehicle.

Special Trips

Vehicles must not be operated over route other than that for which the operator holds a certificate unless such certificate is blocked or otherwise rendered inapplicable, temporarily.

Under the traffic police approval, special trips, chartered trips may be made over any route not covered by express, a comparative rate table showing the minimum charge for freight household goods covered by dust-proof vans for 3,000 pounds minimum for a distance of 100 miles is set at \$4. Each additional 100 pounds is charged 82 cents.

Insurance Policies

Inland transportation—Insurance policies against loss or damage to freight shipments must be deposited with the board. Trucks, vehicles are transported of general merchandise with a carrying capacity of not more than 4,000 pounds are to carry insurance of \$1,000.

Maximum amounts payable in respect of injuries to persons or damage to or loss of property resulting from operation of a motor vehicle are set out. For a motor vehicle with a maximum seating capacity of 25 to 30 the liability maximum in accidents is \$10,000 for the person and \$20,000 covering all persons injured.

The only way a man can find out what a woman thinks of him, is to make her feel real angry.

NORMAN G. CARY
Publisher

FORECAST 1937

We are so close to a situation at times as to be quite unable to see the true significance of events. A silver half-dollar, if held close enough to our eye, can completely block our vision. Perhaps some of us are so occupied in making our "dollar-a-day" that we have not fully appreciated the sweep of events carrying us on to new heights of prosperity and opportunity in Western Canada at the present time.

The writer, as he pens these lines is travelling through the foothills of the Canadian Rockies. We are surrounded and encircled by hills and valleys, but suddenly we emerge from the gap to come out on a broad plateau where the rising peaks present a grand panorama and a promise of new heights and glories ahead. Perhaps, in a business sense, we have reached this vantage ground where we may view with rising hopes the way ahead for 1937.

Let us list a few of the peaks discernible at the present time:

The Wheat Situation

There is no possible doubt as to the ability of our prairies to produce the crop has been for many years—far outstrips the demand for wheat in our own country. There has been a steady increase in the acreage of wheat in our prairies, and the yield per acre has been steadily increasing.

Industrial Expansion

During the past year international trade has reached the highest peak since 1925. Our exports to the United States and the United Kingdom have accounted for most of this under the favorable trade treaties now existing.

Dividends of Canadian Corporations

During 1936, these have been higher than in any other year with the exception of 1930 according to a compilation by "The Financial Post". This means an increase of some thirty millions over 1935. Did we hear some one a year or two ago say something about "dried up purchasing power"? Look over the dividend lists for December and check up on the portly purses and the Christmas season.

Stock Market Recovery

This provides further evidence of returning confidence. The old bull funk of 1933 has completely disappeared. There will, no doubt, be an orderly recovery (barring world accidents), with some of the losses showing spectacular results.

The Mining Situation

New sources of wealth and new fields to conquer have been opened by the quick development of our mines and the rise in the price of gold. 1937 will see new fortunes made, especially in the Canadian northwest. Opportunity knocks loudly on our own back.

Oil in Alberta

The long-lost-for crude oil in Turner Valley has been discovered within the past two or three months there is now a definite prospect of shutting out imports from Montana.

Heavy Orders for Munitions

War material orders are expected from the British government after parliament meets in January. Already the Canada Car and Foundry Company have re-opened their large Fort William plant for the manufacture of aeroplanes.

Expanding Employment

Our relief lists are shrinking. Men are gradually being absorbed back into industry and farming.

Increasing Prices

The steel industry recently led the way with a list of advances ranging from one to four dollars per ton. In the paper field, newspaper and higher grade bonds have also advanced, while sulphate bonds and book paper prices are firm only for a limited period.

Reduction of Interest Rates and Liquidation of Old Debt

This has come about largely on a voluntary basis between debtor and creditor, with a view to easing the channels of distribution and stimulating current business.

Indications of Closer Co-operation Between Dominion and Provincial Governments

National Finance Conferences are working for closer co-operation between Dominion and Provincial governments. As Dr. Leckie has pointed out, we must all join hands and work out our problems as a united nation if we would hope to enjoy the fullest measure of returning prosperity. Political Action Indicated Along the

Follower Lines

(a) Extension of the present Dominion Housing Scheme to give priority to new homes on a wholesale scale.

(b) Establishment of a new immigration scheme.

(c) A really serious attempt to balance Dominion and Provincial budgets.

As one surveys the present position, 1937 emerges as a year of immense opportunity—aye, for some of us, perhaps, a year of destiny.

AGE OF LEADERS

If General Francisco Franco succeeds in establishing himself as Spain's political ruler he will bring down the average age of Europe's Big Men with a bump. General Franco is forty-five; his rival, General Largo Caballero, is fifty-seven.

The average age of the political leaders of Great Britain, France, Italy and Germany to-day is fifty-eight. Mussolini's leadership dates back to 1922; Baldwin, too, was first made Prime Minister in 1922. Yet not one of these men was known outside his own country twenty-five years ago.

Travel back a quarter of a century and the average age of this quartet was thirty-three. Baldwin was forty-four then—already approaching middle age—and had been as M. P. for only three years. When he made his maiden speech in the House of Commons members listened to him with respect but thought it rather an unimpressive effort.

He worked as a private member for almost nine years before he received his first leg-up. It was not until December, 1916, that he was made Parliamentary private secretary to the Chief Whip; he was then in his fiftieth year.

Twenty-five years ago, Leon Blum the present French Prime Minister was thirty-nine. He was then dramatic critic on Le Matin and a contributor to another journal. Although he had joined the Socialist party when he was twenty-seven, it was only during the war that he became an active member. He was not elected to the Chamber until he was in his forty-fourth year.

Mussolini was an obscure journalist in 1912, twenty-eight. Three years later he became editor of Avanti! but resigned almost immediately to start a new paper, Il Popolo d'Italia. In 1919 he stood as

a candidate for Milan but secured only a few votes. He was then in his thirty-seventh year, and it was not for another two years that Fascism became a properly run political party and Mussolini a powerful figure.

Hitler at twenty-two (he is now forty-seven) was an architectural draftsman. He might still be one and an indifferent performer at that, but for the War. He was thirty-four when he organized his unsuccessful party in Munich and was condemned to five years' detention. He was, however, released after a few months and in the following year joined the National Socialist Labor party.

Although the party was represented in the Reichstag, Hitler, then thirty-six, did not get a seat. He is a man in his early thirties too young to accomplish great things.

William Pitt wasn't too young to be Chancellor of the Exchequer at twenty-three. Prime Minister at twenty-four, Chas. James Fox was an M. P. at nineteen and a Junior Lord of the Admiralty by the time he was twenty-one.

Some of the world's greatest thinkers, poets, musicians, writers and artists had reached their zenith while they were still in their thirties—many before that.

Mozart was taken on a tour by his father when he was six, and at the age of ten had written his first opera. At eleven he had written a comic opera. Mozart died at the age of thirty-five, with well over six hundred compositions to his credit. Beethoven wrote three sonatas before he was four.

When he was twenty-eight, Shakespeare wrote "Romeo and Juliet". Dickens was writing "The Pickwick Papers" at twenty-four. He wrote "Oliver Twist" in the following year. Kipling wrote "Plain Tales from the Hills" when he was twenty-two and "Departmental Ditties" at twenty-one. Roosevelt founded the Pro-Hughes-Lite Brotherhood when he was barely twenty; Michelangelo had won fame at twenty-two, and Leonardo da Vinci at the same age was taken into the painters' guild at Florence.

Today we have a handful of young men who became internationally famous while still in their twenties. But modern youth conforms more to a standard pattern; his individuality takes longer to manifest itself and he is up against stronger competition.

We have Winston Churchill, however, who was an M. P. when he was twenty-six. President of the Board of Trade and a big power in the Liberal party before he was thirty-five.

HEALTH

A HEALTH SERVICE OF ASSOCIATION AND LIFE INSURANCE CO. OF CANADA

TIGHT FIT

The human body, like the human mind, desires freedom. Tight fitting garments are uncomfortable and moreover they are ill-advised because they may cause damage to the individual.

Every part of the body requires an adequate blood supply to keep it healthy and capable of performing its proper functions. Anything, therefore that cuts off or retards blood supply must be considered as harmful.

Tight fitting shoes are a splendid example of this. How many thousands of people have suffered from corns and calluses, hammer toes and bunions, cold and clammy feet because they did not wear proper shoes. And the time to start wearing comfortable fitting shoes is when the individual starts to walk. Toes were never intended to be piled up in a heap to be housed in a cone. They should be freely movable within the shoe. The foot of the growing child should be carefully watched by its mother. The average age of the present British Cabinet is fifty-three with Ramsay MacDonald, the veteran at seventy.

The remaining twenty-one members can be grouped thus: seven in their thirties, seven over fifty, four aged mothers. Any sign of rubbing of heel or toe should be checked and if the shoe is at fault, do not let the child wear it again. If this plan is followed throughout the growing period no boy or girl need have corns or calluses and much discomfort of body and mind may be saved to the individual.

But we must not stop there. Throughout life it is necessary to check footwear that fits and allows of complete foot freedom. Ill-fitting shoes not only impede blood supply causing pain and discomfort, but

those same symptoms may have a bad effect on one's temper and judgment, in fact upon one's whole life. Take proper care of your feet.

WANTED—News of any kind or description. If you have held a tea or bridge party, or were away on a holiday or trip, or have visitors, that's news—and we would greatly appreciate you telling us about it.

The diner found a fly in his soup, and said crossly: "Waiter, what is this?"
Waiter: "That, Sir, is a Vitamin B."

A young lawyer was pleading the case for a farmer who had lost two dozen hogs by being killed by a train. Endeavoring to make the jury realize his client's loss the lawyer exclaimed: "Twenty-four pigs dead, gentlemen—twenty-four pigs. Just think, twice the number there are in the jury box."

"It takes a highly intellectual individual to enjoy insurance. Most of us had better count on working—Dr. J. R. Nash."

Bassano Municipal Hospital

District No. 6

Notice to Ratepayers

New Regulations of the Hospital Board, effective on January 1st, 1937 provide that:—

1. Commencing this year, and until further notice, a MINIMUM HOSPITAL TAX OF SIX DOLLARS shall be levied on each ratepayer resident within the hospital district so that every resident ratepayer will be entitled to the full services of one dollar per day. It will not be necessary therefore for any ratepayer to pay any tax difference to the hospital in 1937 and following years.
2. In cases where the minimum tax is levied against a partnership or company, only one member shall be entitled to the ratepayer's privilege under the tax, the other members of the partnership or company shall be considered non-ratepayers.
3. All non-ratepayers and renters living in the hospital district who desire the ratepayer's privilege are required to pay Six Dollars to the Hospital on or before February 15th, in each year.
4. All persons living outside the boundaries of the hospital district who desire the ratepayer's privilege are required to pay Twelve Dollars to the Hospital on or before February 15th, in each year.

For further information apply to the Secretary-Treasurer at the Hospital.

BY ORDER of the BOARD

New 1937 Ford V-8s Announced

Two of the most popular body types in the entire Ford V-8 line are the de luxe Ford touring sedan (above) and the Tudor sedan (below). The new 1937 editions are shown. The smart new front end, new headlamps, V-type windshield and use of the "tear drop" form wherever practicable, combine to give what these who previewed it declare to be the most beautiful Ford yet produced. The Ford touring sedan is a family car especially suitable for touring. It boasts a roomy built-in trunk. The Tudor sedan has a new full-width front seat, with divided tilting seat back. Two engine sizes are available, the famous 35 horsepower V-8 engine and a new 60 horsepower V-8 engine. Mechanical improvements include new all-steel body, with steel top; "easy-action safety" brakes and new "finger-tip" steering.

ALBERTA DAIRYMEN'S CONVENTION TO BE HELD IN CALGARY

Alberta Dairymen from farms and factories will hold their annual convention at the Palliser Hotel in Calgary for three days, Tuesday, Wednesday and Thursday, February 8, 10 and 11. The meetings of every section give ample opportunity for discussion of problems related to the industry today. Reports of recent research will be brought by Dr. E. O. Hood of the Dairy Research Division at Ottawa. Mr. Singleton and Mr. Burgess of the Dairy and Cold Storage Branch at Ottawa will discuss the better situation throughout the Dominion and in the export market. Mr. A. C. Fraser of the National Dairy Council will also speak.

The Cattle Breeders' and Producers' sections will meet on Tuesday and Wednesday respectively. Dr. Bowstead and Dean Henson from the University of Alberta will speak to the farmers on pastures and feeds. Dr. P. R. Tallot, Provincial Veterinarian, will discuss diseases of Cattle, and Mr. S. G. Carlyle, Provincial Livestock Commissioner, will speak on Bull Loan Policies. In addition to these there will be discussions on present problems led by prominent dairymen of the province. Farmers will have an excellent opportunity to meet and frankly talk over plans for the improvement of their herds with leaders in the industry today.

A similar programme has been arranged for buttermakers and manufacturers. Dr. H. R. Thornton will be present and will speak on Milk and Cream Plants. A feature of the buttermakers sessions will be the open discussions that have been arranged with Creamery Men from various parts of the province acting as leaders. Mr. W. Morris of Eckville is chairman of the Buttermakers Section this year and Mr. D. Morberg of the Manufacturers' Section. Special Meetings and a cheese scoring contest have been arranged for cheese makers. Mr. Burgess of Ottawa will speak on cheese defects and their remedies and Dr. Thornton and Mr. Scout from the University of Alberta will deliver addresses.

A study of the complete program reveals an unusually good list of

topics and speakers. The Alberta Dairymen's Convention has always been of a high order and this year's meeting's give promise of being more fully attended and of more timely interest than usual.

WHAT I OWE MY TOWN

The following is copied from an exchange:

"I call my citizenship accounts were balanced at this date. I would be the debtor. Haven't I, all these years, lived within the limits of the town and shared all its benefits? Haven't I had the benefit of classrooms and churches? Haven't I had the use of its parks and public places? Haven't I had the protection of its fire, police, and health departments? Haven't its people during all this time, been gathering for me, from the four corners of the earth, food for my table, clothing for my body, and material for my home?"

Haven't my Town furnished the patronage by which I have succeeded in my business? Haven't it furnished the best friends of my life, whose ideals have been my inspiration, whose kind words have been my cheer, and whose helpfulness has carried me over the greatest of my difficulties? This is a viewpoint which is not too common, but has no little substance. The privileges of citizenship in a pleasant town are met in a measure, but not altogether, by taxes. There is a tonic which we cannot measure money, in our neighbors' flower gardens, in tree-mended walks, in well kept homes and in all the groves of nature and man's industry, which flourish around us. This is a satisfaction in kindly companionship and in neighborliness on which no taxes are paid. Such by-products of town life are not taxable, yet they make up the values and happiness of life.

Betty (just engaged): "Doris, can you imagine what it is like to be in love, to sit next to the man you most adore and feel your innermost soul vibrate?"

Doris: "Of course, my dear, I feel like that every time Joe takes me out on his motor-bike."

The SNAPSHOT GUILD

WHAT PRICE LENS?

You don't need an expensive camera for a picture like this.

LIKE owning a high-powered de luxe automobile, there is pleasure in owning a de luxe camera with an ultra-fast lens. Whatever one's skill as a photographer, one points with pride to the f2.8 or the f3.5 on the diaphragm scale and properly boasts of the camera's great capability and of the variety of pictures which it can take.

No question but that these expensive cameras with lenses allowing a maximum aperture of f2.8, f3.5 or f4.5 have range and versatility that greatly increase opportunities in picture-taking and are a source of much satisfaction. And there is no doubt that in the hands of an advanced enthusiast seeking technical perfection they are a superior tool.

But if you are unable to boast of owning such a fine camera, don't get discouraged. You can get a camera with a simple maniac lens box camera with but one stop at around f11. You may regret that you are not able to take action shots at night or a "shutter" performance on a night club or stop a diving beauty in mid-air. But do not forget that many are

the prize-winning photographs that have been made with ordinary cameras, box cameras not excepted. You must concede that favorable light conditions are required for your picture-taking, but in ordinary circumstances, favorable light conditions are not uncommon phenomena. And dull, cloudy days, when the sun is hidden, and deep shade are not, in these days of fast film, by any means unfavorable light conditions for an f2.8 lens.

Beautiful photographs are taken with no lens at all—with a pin-hole camera. Again the owner of a camera with an f2 lens more frequently uses apertures equivalent to those in ordinary cameras because, for most of his picture-taking, he does not need the f2 aperture. As with a high-powered automobile, he has the speed when needed.

Remember that very poor pictures can be taken with costly cameras and very fine pictures with inexpensive cameras. If you know what your camera will do and how to use it, whatever the speed of the lens may be, you will always have plenty of good pictures to boast about.
